Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 10-12, 15-23, 27-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Whayne et al (US 6,071,279).

Whayne discloses a catheter assembly having a handle 18 (fig 1) with a strain relief element 68, an elongate catheter body 12, a control element 152 (figs 21-24) secured to the strain relief element (col. 16 lines 16-18), and an apparatus 36.

Claim Rejections - 35 USC § 103

2. Claims 13, and 24-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Whayne et al in view of Brennen et al (US 5,439,006).

Whayne discloses the invention substantially as claimed. However, Whayne fails to disclose the control element being secured to the strain relief element by a substantially tubular member that surrounds respective portions of the strain relief element and the control element.

Brennen teaches a handle assembly (fig 3) where the control element 12 is secured to the strain relief element 34 by a substantially tubular member 42 that surrounds respective portions of the strain relief element and the control element 12. Given the teachings, it would have been obvious to one having ordinary skill in

Art Unit: 3763

the art at the time the invention was made to use Brennen's handle assembly with the Wayne's catheter assembly. Doing so would have manipulated the control element of the catheter assembly.

Allowable Subject Matter

3. Claim 14 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed March 29, 2002 have been fully considered but they are not persuasive.

Applicant's arguments are narrower than the claims. The claims do not have enough structural language to overcome the art of record.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
